Re: Update to 2021 Distribution Plan for Bausch Health Branded Rx NDCs – Renewed Availability through Amerisource Bergen

This is an update to the Bausch Health US, LLC (“Bausch Health”) letter dated December 28, 2020. We are pleased to announce that, effective immediately, all Bausch Health’s branded prescription NDCs set forth on Attachment A in the December 2020 letter (reattached to this letter for reference) will once again be available at the 340B ceiling price through Amerisource Bergen for eligible 340B purchases made by 340B covered entities and 340B contract pharmacies. This change only restores Amerisource Bergen to those national and regional wholesalers through which covered entities may access the 340B ceiling price on these products, and it does not affect the ability of any covered entity or contract pharmacy to make such purchases through our other national or regional distributor partners.

Please feel free to contact Bausch Health with any questions – Using this mailbox: 340Binquiries@bauschhealth.com.

Sincerely,

SVP Market Access
Bausch Health US, LLC

Attachment A**Current Branded Product NDC List**
